Granting Wishes of Joy

For Those Fighting Breast Cancer

About Breast Wishes

Established in 2017, Breast Wishes Foundation was founded by Elesha Snyder and Mandi Snyder Moore, after their sister Kelli James, lost her third battle with breast cancer in 2006. Breast Wishes is a non-profit organization dedicated to bringing joy and hope to those battling breast cancer throughout the Miami Valley region.

The Power of *joy* in the Face of Breast Cancer

Breast cancer is a costly and challenging journey that often begins with fear and denial, followed by treatments like surgery, radiation, and chemotherapy. This grueling process can lead to financial struggles, job loss, and even loss of hope.

Joy is a powerful force in facing the challenges of breast cancer. It doesn't deny the hardship but empowers patients to acknowledge and confront it with resilience and hope, despite the outcome. At Breast Wishes, this belief is at the heart of everything we do—bringing moments of joy and respite to brighten even the most difficult days of someone's breast cancer journey.

Our Mission

We grant wishes that bring JOY to those with breast cancer.

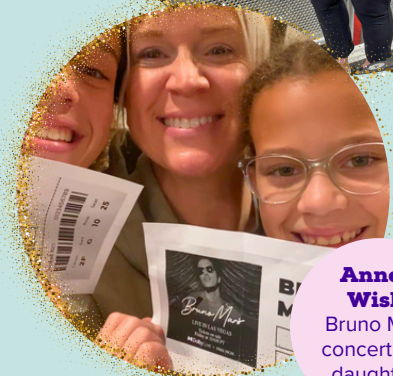

What Is A Wish?

Each wish we grant averages \$1,500 and is uniquely tailored to the individual, ensuring it reflects what will bring them the most happiness and comfort during their journey.

Whether it's a dream vacation, a relaxing spa day, a weekend getaway, tickets to a favorite concert or sporting event, or even new furniture to brighten their space, we make wishes come true in ways that uplift and inspire during difficult times.

Vicki's Wish:

WISH: Crafting Shopping Spree

"At the age of 48, I was diagnosed with invasive ductal carcinoma breast cancer. I was really struggling to see the light at the end of the tunnel.

I heard about Breast Wishes and decided to ask for a wish. It's not something I normally do, but I needed some joy. I chose a shopping trip to Hobby Lobby to stock up my craft room, to give me something to do to keep my mind off of chemo (I was right in the middle of it) and to bring a smile to my face. Smiles were very hard to come by.

Thanks to Breast Wishes, I was able to get back into crafting. I was able to get through some of the hardest days of my life because I had the opportunity to make something beautiful during some of the ugliest days. That opportunity led me to trying crafts I've never done before, which then led me to starting my own small business."

Dorothy's Wish:

A family trip to the beach

Lori's Wish:

A dining set for family to gather
